HBiz Lease Manager Information Sheet

Giving you a new lease on (business) life!

HBiz Lease Manager has been developed as a MYOB EXO Business add-on module lease management system that can be linked to EXO Job Cost Serviceable Units and General Ledger.

HBiz Lease Manager can provide monthly lease schedules, post monthly lease journals to the EXO General Ledger with a press of a button, process early payout and final payout journals for leases with an option to post journals to General Ledger via a pre-defined journal template and more.

HBiz Lease Manager features

- Unlimited number of leases
- Unlimited users
- User access control
- Faster searching with optional filtering
- Link to EXO Serviceable units module
- Easy export to MS EXCEL from grid screens
- Faster lease processing - daily/weekly/monthly
- Available for 3 main lease types
 - Finance Leases
 - Hire Purchase Leases
 - Operating Leases
- Ability define journal as a template for each lease type for faster data entry
- Automatic calculation of monthly amortization based on the lease terms and residual balance
- Tracking/live information of each lease terms, interest and principle paid with full transaction/payment history
- Complete payment schedule for every lease with month to month breakdown.
- Monthly expenditure reporting with forecasting
- Monthly interest expense and principle paid calculations
- Early lease termination payment calculations with inclusion of fees and GST charges
- Ability to produce remittances for Finance companies
- Financial reporting available via web based report engine, can be accessed from internally or externally.

NB: Site can have only one Lease Manager Database with unlimited users.
